Mindy Kaling has lived many lives: the obedient child of immigrant professionals, a timid chubster afraid of her own bike, a Ben Affleck-impersonating Off-Broadway performer and playwright, and, finally, a comedy writer and actress prone to starting fights with her friends and coworkers with the sentence "Can I just say one last thing about this, and then I swear I'll shut up about it?"

A

Perhaps you want to know what Mindy thinks makes a great best friend (someone who will fill your prescription in the middle of the night), or what makes a great guy (one who is aware of all elderly people in any room at any time and acts accordingly), or what is the perfect amount of fame (so famous you can never get convicted of murder in a court of law), or how to maintain a trim figure (you will not find that information in these pages). If so, you've come to the right book, maybe.

6. Connect your e-reader to your computer. The 3M Cloud Library should detect your device. Additionally, the option to "download to device" will now appear.

7. Click the "download to device" button. A progress bar will appear as the book downloads. When complete, you will get a message that the "book was successfully transferred to the device." You can then disconnect your device from your computer.

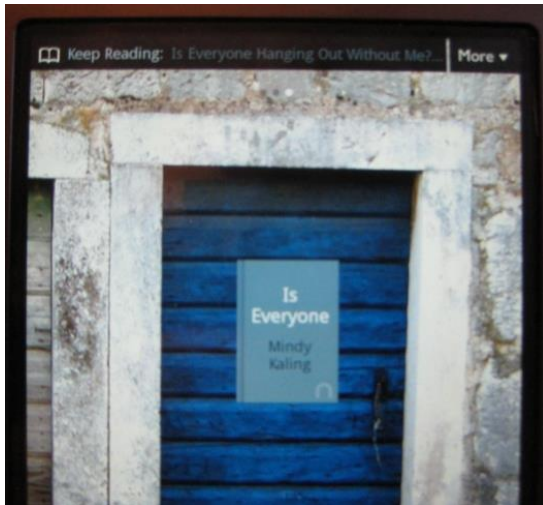

8. On your Nook, open up your "Library." Under the folder "My Stuff," open another folder called "Digital Editions."

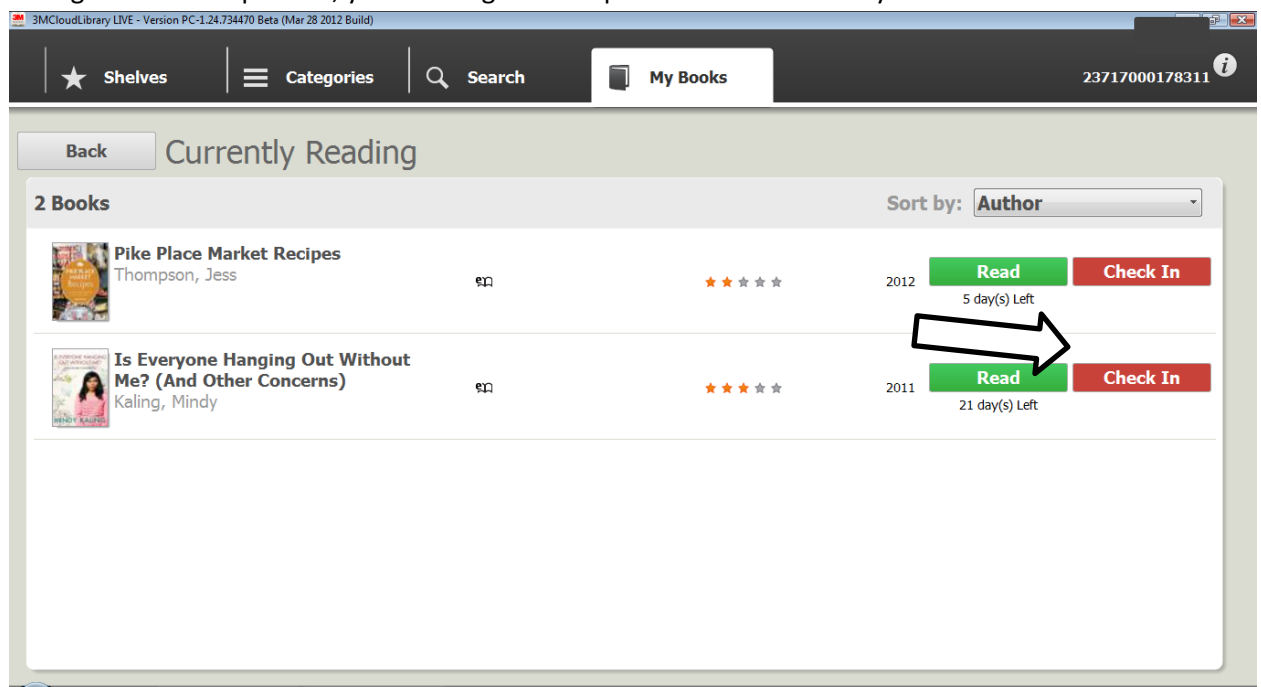

You will then see the title of the book you downloaded.

Tap on the title, and the book will open. You are now able to read the book. Once you open a book from your Digital Editions folder, it will show up on your "desktop."

9. If you wish to manually check in a book, click on the "List View" under the "My Books" tab. During the check in process, you will be given an option to rate how well you liked the book.

10. Even if you check an e-book in early, it will not automatically erase from your device. You will have to delete it manually. However, if you try to access the book after your checkout period has elapsed, you will get a message that "The lending period for this eBook has expired."
11. If you choose, you can always read your e-book on your computer. Just click on the book cover under "My Books." A new tab will open up called "EBook." Using the arrow buttons, you can move back and forth between pages. The 3M Cloud Library will also keep track of where you

stop between readings. Click "Close" to close the e-book entirely.
